

Server Backend editions

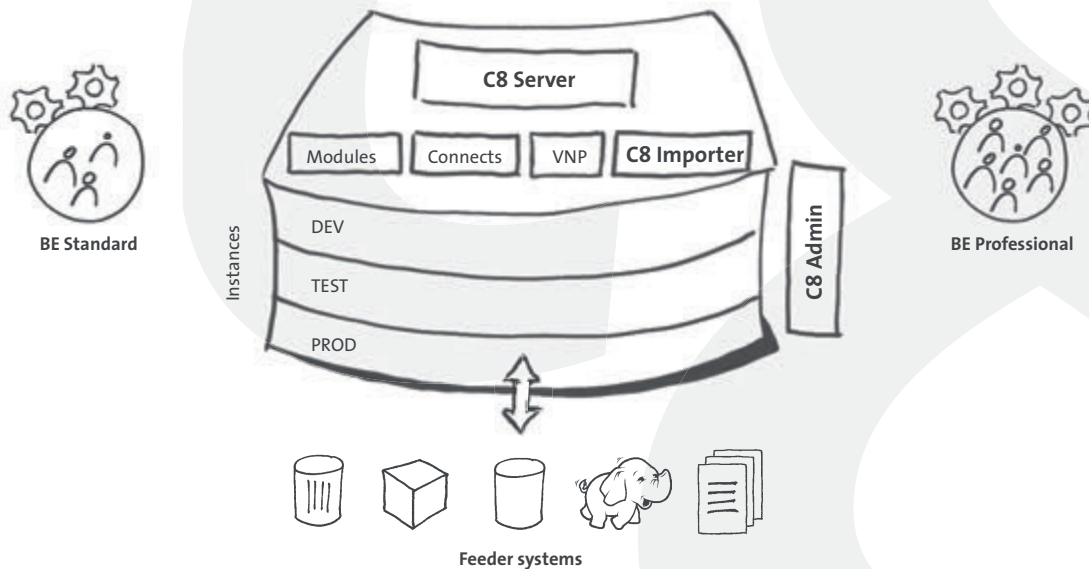

The C8 Server data management editions

A team-based approach to managing and modelling your data

- Collaboration options in the data management process via C8 Server integration
- A function set to match any analysis model
- No frontend lock-in

General information for both editions

- Upgrade path available from BE Standard to BE Professional and to primary Server editions (protect your initial investment)
- Named and/or concurrent licensing possible
- Cannot be extended with Cubeware frontend licenses – upgrade-only

Server Backend editions load capacity + functionality

BACKEND STANDARD

Load capacity*: 6 VNP**

Functions:

Plan Maps

Connects:
